

DMA161 | LOCATION PROJECT

DESCRIBE YOUR LOCATION

*Include latitude and longitude as well as short description of the space.
What stands out about it? Why did you choose it?*

WHAT IS THE KEY MOBILE FUNCTIONALITY YOU'RE USING?

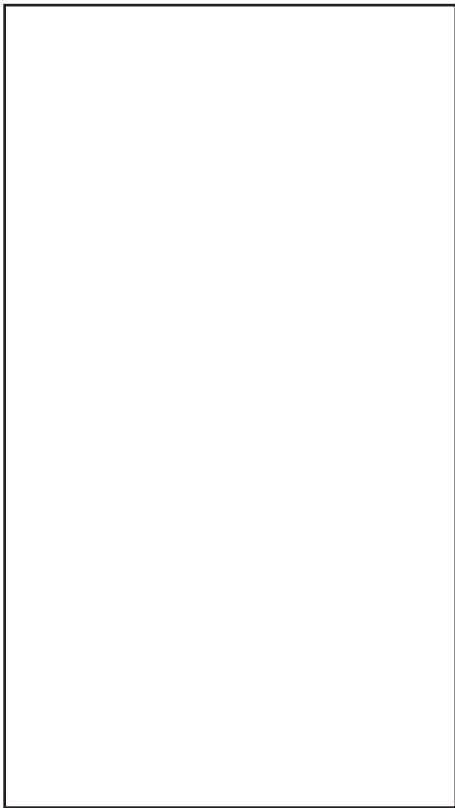

Accelerometer, GPS, touch, camera, something else? How are you using it in an interesting or unique way? What does it let you do that you couldn't with a desktop computer?

WHAT IS THE GENERAL CONCEPT OF YOUR PIECE?

One paragraph description.

SKETCHES

For each different “state” of the piece, provide a sketch of the view. Indicate next to each what state this is. Make notes about interactivity or key other functionality.

NOTES v
